FIERCE FIRES

Are Raging at Liao Yang

OPERATIONS AROUND MUKDEN

St. Petersburg is Depressed Over Russian Retreat Which May Turn Into a Route

LIAO YANG ON FIRE.

Tokio, September 2.—2 p.m.—It is reported that a conflagration is raging at Liao Yang.

OPERATIONS AROUND MUKDEN.

London, September 2.—A despatch from St. Petersburg reports that General Linewitch from Vladivostok, is within two days march of Mukden with thirty thousand troops.

London, Sept. 2.—The consensus of opinion is that General Kuropatkin's position is most perilous. The absence of telegrams from Liao Yang, together with the news that railway communication is interrupted, shows that General Kuropatkin has begun his retreat too late.

JAPANESE PRESS LAIZEHO HARD.

Liao Yang, Sept. 2.—The Japanese left began pressing the Russians towards Laizeho at dawn this morning. The Japanese right is engaged in the neighborhood of Hoiyint. The Japanese casualties since August 29th are officially estimated at ten thousand.

JAPS CONTINUE TO ADVANCE.

Tokio, Sept. 2.—The Chief of Staff of the centre of the Japanese army, Gen. Nodzu, telegraphing early this morning, reported that the Japanese centre was continuing to advance today, with the object of taking a line from Shichiyu to Liao Yang and effecting a rejunction with the Japanese left, commanded by General Oku.

LITTLE DEFINITE NEWS FROM THE FRONT.

Chefoo, September 3.—The lack of definite information from the seat of war continues up to this Saturday morning, and nothing further regarding the situation at Liao Yang is known beyond the fact that Kuropatkin has withdrawn the main portion of his force to the north or right bank of the Taitse river, and that according to the latest advices this action is still in progress. There is a disinclination at St. Petersburg to believe that Liao Yang has been abandoned and at the same time it is declared the position Kuropatkin now occupies is the one he had prepared and fortified and where he has long planned to make his second stand with the river at his back as has been believed. It is thought by Russian experts that in attacking Kuropatkin's present defences the Japanese are making an almost impossible attack and especially with their forces divided by the river.

ANOTHER RAILWAY LOOMS UP.

Capitalists will ask for a Charter granting power to construct a railway from Melita to Edmonton by way of Regina

Bulletin Special Dispatch.
Ottawa, Sept. 3.—Application will be made at the next session of Parliament for an act to incorporate a railway company under the name of The Melita, Regina and Edmonton Railway company, to construct a line from a point near the village of Melita in the province of Manitoba in a north-westerly direction to Regina, thence

northwesterly to the Elbow of the South Saskatchewan River and thence in a northwesterly direction in as direct a line as practicable to Edmonton, with power to extend this said line southeasterly from Melita to the international boundary line near to the southeast corner of a township on range 25 west, principal meridian, Manitoba.

DEPARTMENT ISSUES

AGRICULTURAL REPORT

Facts and Figures dealing with Western Canada's Agricultural Development.

The sixth annual report of the Territorial Department of Agriculture has just been issued. The report proper consists of 155 pages full of facts and figures which will be perused with interest by those who wish to keep in touch with the agricultural, social and economical progress of the Northwest Territories. The volume is divided into twelve sections, as follows: Crops, Live Stock, Agricultural Experiments, Agricultural Educational Work, General Notes on Agriculture, Transit and Markets, Territorial Industries, Colonization, Miscellaneous Services, Public Health, Office Work and Organization. The twelfth section, Appendices, consists of the annual reports of the secretaries of the various Territorial Live Stock Associations and the Territorial Natural History Society. The report is very fully indexed and some good illustrations will be found at the end of the book. Copies of the report may be obtained free of charge upon application to the Deputy Commissioner, Department of Agriculture, Regina.

The usual tables of precipitation and temperature, etc., will be found under this head and these will no doubt be perused carefully by intending settlers and investors in Northwest lands, as well as those progressive farmers who realize the important relations of meteorology to agriculture in all its branches. A brief history and interesting comparative statement is given of the business of hail insurance as carried out under the Northwest government's scheme.

The crop statistics now cover a period of six years, in which the production of wheat and oats has more than trebled, and that of barley has more than quadrupled. One of the districts marked in previous reports as "not yet under settlement" now shows substantial yields of the various grains. The average yields per acre of the leading crops for the whole Territories are: wheat, 19.42 bushels; oats, 34.32; barley, 23.36. Statistics of fall wheat are this year given for the first time. This crop was produced for the most part in Alberta. The total yield was last year 82,420 bus-

yield per acre, 23.36 bushels. On page 31 a table shows the production and average yield per acre of grains in certain of the western States, the provinces of Manitoba and Ontario, and the Northwest Territories. The Chief Weed Inspector's report draws attention to the increasing trouble caused by the spread of blue bur and Russian Figweed and that public opinion seems to be in favor of these being listed as noxious weeds. A review of the weeds found most troublesome during the year is given.

The Deputy Commissioner points out the hardship inflicted on harvest excursionists by failure on the part of farmers to hire them promptly on their arrival at Territorial points. These men are often kept hanging round towns at their own expense for days, should the commencement of harvesting operations have been delayed through wet weather or other cause.

The subject of live stock is very fully dealt with in its various phases in the reports of the several Live Stock Associations, which form appendices to the departmental report. There is a note on the working of the new Horse Breeders' Ordinance. This ordinance has created much interest among those interested in horse improvement, both locally and in the United States. On page 40 will be found a list of the stud books recognized by the Dominion and Territorial Departments of Agriculture. Under "Stallion Syndicates" the report draws attention to the evils which are found to exist in connection with this system. The remarks on fattening steers on the farm should be of interest to farmers in the mixed farming districts. Pages 50, 51, and 52 present the usual statistics of the business of the Territorial creameries under the management of the Dominion government. The stock shipment statistics are somewhat disappointing, but as the Secretary of the Cattle Breeders' Association points out, 1903 was an off year in the cattle business. An inquiry was made by the department into the causes of abortion in sheep, the results of which will be found on page 56. It is suggested that ergot of the native grasses may be a probable cause of this trouble, and illustrations are given of ergotized heads of two varieties of these. Under the head of Swine are the usual statistics of prices and reports on the auction sales of purebred swine, carried out under the auspices of the department. It is interesting to note that last year the department was able to procure the swine for these sales from breeders within the Territories, the animals purchased being for the most part the progeny of those brought in by the department from Ontario and disposed of by auction in former years.

Ross Bros. Ltd.

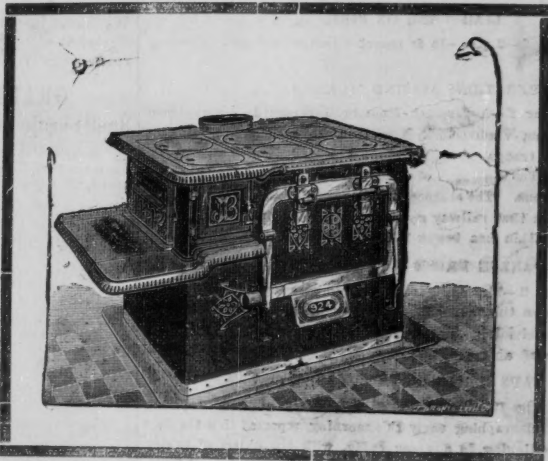

Just a few words further about

Steel Ranges

Ross Brothers, Limited, have Steel Ranges from \$30 to \$60. They have a first class full No. 9 Steel Range,

Made in Canada

With Copper Reservoir, High Enclosed Closet, fitted to burn either wood or coal at \$48. This Range has an extra large fire box and is well suited for town or country use. We also have ranges without high closets very much cheaper, that have very large ovens, large fire places and are built especially for farmers use.

It seems absurd to us that Steel Ranges can be sold at prices nearly double what we are asking, that have not got nearly as many good points to recommend them as our \$48 Ranges. Our \$48 Range is heavier, larger both in oven and fire place,

And we Guarantee

That our Castings will not warp out of shape nearly as soon as some of the much vaunted higher priced Cook Stoves or Ranges.

Why, you fit up a whole kitchen with us for nearly the price you are asked for a Cooking Stove or Range alone. We will convince you of this fact if you want a Range and will be pleased to show you the goods at our store.

Ross Bros.,
Limited.

COUNCIL MEETING

HELD LAST NIGHT

The Grand Trunk Pacific officials send formal Letter of Thanks to Mayor and Council.

The adjourned regular meeting of the city council was held in the council chamber yesterday evening, commencing at 8.45 o'clock. Mayor Short and Councillors Grierson, Fraser, Ross and Picard were present. The minutes of the last regular and adjourned meeting were read and adopted.

There was a short discussion on the arrangements being made for the reception of the Governor General on his visit to Edmonton on September 10th. He is expected to arrive in Edmonton about nine o'clock on the morning of the 10th and will be met and taken for a short drive about the city. He will then officiate at the laying of the corner stone of the new McKay avenue public school and will leave shortly afterwards for a drive to Fort Saskatchewan, returning to Edmonton in the evening. The next morning he will start on his overland ride to Prince Albert.

W. H. Clark was heard in connection with his tender for the two boilers and engine formerly used in the power house. The question of the proper way to dispose of this machinery and also the acceptance or rejection of Mr. Clarke's offer, was referred to the Fire, Water and Light committee to bring in a report.

COMMUNICATIONS.

The Babcock Wilcox company forwarded their invoice for boilers and accessories shipped amounting to \$14,400. Part payment of this amount was asked for.

Donald Ross enclosed a copy of a letter he had forwarded to the Albert college authorities, asking them to join with him in granting one-half of a roadway of thirty-three feet width from McDougall street to the river, between river lots four and six near the Edmonton brewery. Mr. Ross's letter was ordered to be acknowledged with thanks for his public spiritedness in offering part of his land for road purposes.

A letter was read from Frank W. Morse, Vice-president of the Grand Trunk Pacific railway, thanking the Edmonton public officials on behalf of the members of the Grand Trunk Pacific party for the kindness shown them when in this city. The letter stated that the party were thoroughly delighted with Edmonton and with the reception tendered them.

REPORTS.

The power house engineer reported: (1) that it would be necessary for the coal supply contractors to commence delivery on Tuesday, September 6th; (2) that the condenser and air pump lately installed at the power house were working satisfactorily; (3) that the boiler foundations, etc., were all ready for the new machinery when it would arrive. The report was adopted.

The new generator for the power house will be here shortly. This 225 Kilowatt machine is arranged for direct connection to the present Robb engine. This would necessitate the shutting off of all lights for at least a week or ten days, but probably more. It was suggested that the old dynamo be moved to Fraser's mill and electric light supplied to the business portion of the city during the installation of the new generator. Councillor Fraser was asked to report to the council as to the probable cost of this arrangement.

Beck, Emery and Newell wrote regarding the claim of Mr. Theo. Revillon against the city on account of his team of horses falling into the waterworks excavation in front of the Windsor livery. No further action will be taken in the matter until Mr. Brock's return.

John McKay and company, E. R. Wood, and G. A. Stinson, wrote regarding city debentures. Some short time ago John McKay & Co. were granted an option on city bonds at 4 1-2 per cent. He now wires to have it made five per cent. and also less his commission. The secretary-treasurer was instructed to inform John McKay and company that if they did not wish to continue work under the option, to inform the city of their intention.

The collection of the poll tax was ordered to be proceeded with at once.

In regard to water supply for the Edmonton brewery the following schedule was drawn up: for 20,000 cubic feet of water per quarter, 16 cents per hundred cubic feet. From 20,000 to 30,000 the rate is to be 13 cents per hundred cubic feet. Over 30,000 will receive water at the rate of ten cents per hundred cubic feet. The by-law will be amended to include this extension of rates.

Considerable discussion took place on the question of taxes and water rates on the Edmonton Industrial Exhibition Association grounds. Mayor Short recommended that the city should purchase at the original cost to them, the exhibition grounds and then lease them to the Exhibition association. The city council voted \$1,500, five hundred dollars more than last year, on the understanding that the association pay its water rates and taxes. Councillor Grierson supported the mayor in his idea of the city buying the site. Councillor Picard was strongly in favor of having the association pay the taxes and water rates and a resolution to this effect was unanimously carried. The grant less these amounts, will be paid at once.

The board of works reported on the proper signing of two petitions for sidewalks; one for a sidewalk on the north side of Twelfth street east, from Kinistino avenue; and the other for the east side of McDougall street from Jasper to Isabella streets.

Tenders from Messrs. Gardner and from Phesay and Batson, for the construction of coal bunkers and engine beds at the power house. The question was referred to the board of works committee with power to act.

The cess pool at the hospital is again a nuisance. J. J. O'Donnell complained of it to the city. The health officer was instructed to investigate and report.

Councillor Ross brought up the question of lowering and raising the crossing on Third street just below the hill. He thought that much unnecessary expense had already been incurred and that the matter should be investigated.

The question of the construction of a spur line from the C.N.R. station down Fourth street to the power house was discussed and a committee appointed consisting of Mayor Short and Councillor Fraser, to see Superintendent Pace regarding the cost. This spur would be used to carry the new machinery to the power house.

A meeting of the council will be held some evening next week if possible to discuss the new city charter.

The finance committee's report was adopted and the accounts ordered to be paid if found properly certified.

"Two in One" Shoe Polish

Shines the World's Shoes

It's a Paste, that does the work of liquid and paste—does it twice as well—in half the time. Two applications a week and a few brisk rubs with a cloth every morning—will keep your shoes as glossy as new patent leathers. "Two in One" is a leather food—softens the leather—keeps out moisture—makes shoes last longer—and won't grease the clothes. 10c and 25c boxes. In collapsible tubes, 75c. At all Dealers.

N. LECLERC, - PROP

THE SINTALUTA WRECK.

Express train crashed into freight on siding. Three men killed, amongst them being Mrs. J. C. Dowsett of Edmonton, and two coming to Strathcona. Engineer and conductor arrested for criminal negligence.

The news of the fatal wreck on the C. P. R. at Sintaluta yesterday morning was announced in yesterday's Bulletin and some of the details of the accident in the special issued in the evening as follows:—

Indian Head, Sept. 2.—The second section of No. 1 ran head on into a stock train on the siding at Sintaluta at 9.40 yesterday evening. The stock train on entering the siding, left the switch open and the express ran in at the rate of thirty miles an hour. Five women were killed outright and five were badly injured. The engineer of the express had one rib broken.

Lord and Lady Minto and staff on the train escaped injury. They cared for the wounded. One of the women killed is believed to belong to Edmonton. She left three children uninjured. Lady Minto took charge of the bereaved little ones.

Drs. Kent, Hunt and Harvey, attended from Indian Head. Dr. Hunt is today holding a coroner's inquest. The following further particulars of the accident have been received:—

Bulletin Special Dispatch.
Winnipeg, Sept. 3.—For the first time in many years an accident fatal to passengers occurred on the Central division of the Canadian Pacific railway. The transcontinental train, with the Vice-regal party on board, which left Winnipeg at 9.30 Thursday morning dashed into a freight standing on the siding at Sintaluta and as a result five people are dead and five injured.

Only three of the dead have been identified. They are:—

Mrs. J. C. Dowsett, Edmonton, who was returning from a visit with friends.

Mrs. Warren, of Hand Point, Ont. Miss Agnes Shirley, of Ottawa, going to Strathcona, Northwest Territories.

Two other women victims are unidentified. They hold tickets Number 60,622 and 60,624, purchased in Toronto and destined for Calgary. They are evidently sisters.

Lewis Ross, of Blenheim, Ontario, and L. H. Hart, the porter on the car, are seriously injured. They were taken to the hospital at Moosejaw.

The others injured are:—
Miss Annie Goldman,
Her sister, Mrs. I. Beck, of New York.
Miss Marianne Murray.

These three have continued on their journey. The responsibility of the fatal accident on the C. P. R. at Sintaluta has been fixed on Engineer Johnstone and Conductor Irwin of freight train No. 118. At the coroner's inquest held over the bodies of the five victims of the wreck yesterday afternoon, a verdict of criminal negligence was returned against these men and they were arrested and taken to Moose Jaw where they will stand trial on the charge which is to be preferred against them. Both men are residents of Moose Jaw.

The cars Canada and Victoria which were attached to the end of the train and which were carrying the Vice-regal party, were jarred up somewhat by the impact of the meeting of the trains, but none of the occupants were injured. They with other passengers who were unhurt were able to proceed six hours after the collision. The train was not running at a high rate of speed, having slowed down to pass through the yard and this accounts for the fact that more passengers were not killed or injured.

MRS. DOWSETT'S DEATH.

The community was shocked when the first news of the death of Mrs. J. C. Dowsett, became known. She with her three little children were returning from holidaying in Winnipeg when the dreadful accident happened. The most sincere sympathy goes out to the bereaved husband in his sore affliction. He left this morning to meet his children at Calgary.

WILL PURCHASE SWINE

In order to encourage the breeding of purebred swine the Territorial Department of Agriculture has decided to purchase a number of well grown pigs of apring litters. A circular letter, explaining what the Department will do has been sent to all purchasers of swine at Government auction sales, as to breeders of pure bred swine. Anyone having pigs for sale falling to receive a copy of this circular letter, should write to the Department at once for it.

CHURCH SERVICE

Rev. D. B. Harkness, of Winnipeg, will occupy the pulpit of the Baptist church on Sunday evening.

Rev. C. V. Hall will occupy the pulpit of the Kinistino avenue Methodist church both morning and evening tomorrow. In the evening he will preach from the subject "Sleeping in Jesus." Special music will be furnished by the choir and Miss Mahaffey will sing a solo. The first meeting of the Sunday school will be held at 3 p.m. A. T. Cushing will act as superintendent.

Rev. A. Forbes, of Fort Saskatchewan, will occupy the pulpit of the Presbyterian church.

NOW I notice a decided improvement in the cultivation of tobacco in Cuba.

The soil is artificially fertilized and the plants regularly tended by experienced men to keep down the destructive caterpillar—and keep the plant nipped back so that only as many leaves are left on the plant as nature will allow it to properly mature—consequently the quality of the tobacco has so improved that when I buy the well matured and well cured leaves I obtain the choicest smoking material the world produces.

J. BRUCE PAYNE Limited, Granby, P.Q.

The celebrated Broadleaf, grown in Connecticut, I use as binder, and a genuine clear leaf Sumatra, I import from Amsterdam, Holland, completes my Parson and makes it a delicate, charming smoke.

P. UMBACH,
Chief Ranger. R. S. HASKELL,
Recording Secy.

LIVE STOCK SALE

Some four or five years ago the Territorial Cattle Breeders' association initiated an annual auction sale at Calgary in order to develop a market for purebred cattle produced in the West and to encourage the increased production of such stock. Secretary G. W. Peterson says that this sale now enjoys the distinction of being the largest individual auction sale of purebred stock in the world. The sale last May was most encouraging to breeders who contributed from every portion of the Northwest Territories, from Prince Albert to Oxbow and from Moosomin to Morley. The future of the stock industry of the west very largely depends upon the quality and number of purebred sires available there, and, consequently, any encouragement extended to local breeders of purebred stock will be given in a good cause. The directors of the Cattle Breeders' Association are careful to conduct the annual sale in the most scrupulously honorable manner, so that purchasers may always feel assured that any animal bought at the sale is obtained at a price only slightly above what other breeders were prepared to pay, a feature of purchasing by public competition which will no doubt appeal to most buyers.

It may be of interest to note that association auction sales of livestock were first advocated by the Dominion Department of Agriculture, and that the establishment of the sale at Calgary is very largely due to the efforts of Mr. F. W. Hodson, Dominion Live Stock Commissioner. This annual event draws breeders and stockmen from all over the West, and since its inception the production of purebred cattle in the Territories has increased by at least four hundred per cent, due to the fact that an annual remunerative cash market for purebred stock is now available.

DELIGHTED WITH THE WEST

Dr. Milton Baker and Dr. Erwin Baker, of Springfield, Ontario, arrived in Edmonton Thursday evening and left for the south Friday morning. During their very brief stay in the city they managed to get pretty well out in the residential portion of it. This is their first visit to Edmonton and what struck them most was the great natural beauty of the city. One of the party remarked that the bald prairie was all very well, but that country like the Edmonton district—that was so much like old Ontario was the place where he would prefer to live. They came expecting to think well of Ed-

monton as a prosperous city of large dimensions, but they were totally unprepared to find a city of such solid growth and such magnificent resources and possibilities as Edmonton enjoys. Great developments must result from the opening up of a nearby shipping port on the Pacific coast by the construction of the Grand Trunk Pacific railway. Both gentlemen have been greatly impressed with their trip through Western Canada.

Railway Notes

From the Battleford Herald.

Another grading outfit passed through town yesterday bound for the west. All work has been completed as far as E. Howell's farm at Brasaylor except the grading to the proposed bridge over the Saskatchewan. J. W. Norton succeeded in rounding up another batch of twenty-five men for Edmonton to bring down the timber for the C.N.R. bridge at Battleford. They left here last Friday. Mr. Norton left yesterday for Prince Albert on the H. B. Co.'s steamer Saskatchewan to engage more men for the same purpose.

Setter and Dickinson's grading outfit, consisting of about thirty teams, passed through town last Friday for a point near Prince's farm.

Mange in Southern Alberta

Oskotoks Review, August 25th:

In a recent shipment of live stock from this point and Cayley the veterinary surgeon inspecting the stock discovered only one or two cases at Cayley of cattle affected with mange. He would not say that they were troubled with mange, but the animals bore slight signs of skin trouble, and as a result were out of the bunch. This information is of great importance to ranchers as it clearly indicates that Southern Alberta is practically free from this trouble, and it will be necessary to enforce the clipping of animals for mange when such disease does not exist.

Veterinary Surgeon Riddle, of Calgary, was in Oskotoks on Monday and thoroughly examined the Pugh Livingston-Hoadley bunch of horses for traces of mange. He declares that after a careful scrutiny of every horse he has failed to find any traces whatever of the disease among the bunch.

Mechanics, Farmers, Sportsmen! To heat and soften the skin and remove grease, oil and rust stains, paint and earth, etc. use The "Master Mechanic's" Tar Soap. Albert Toilet Soap Co., Mfrs.

Notice.

Steam Engineers

Special meeting of members of Edmonton steam engineers' union will be held at fire hall on Thursday evening, Sept. 1st, at 7.30 for the purpose of making preparations for Labor Day.

The Society Woman

Though hurried and rushed in society's whirls,
Her complexion is rosy and fresh as a girl's;
Well she knows, though she dances far into the night,
"Abbey's Salt" in the morning, will make her all right.

Society people recognize the value of ABBEY'S SALT as a health preserver and complexion beautifier. ABBEY'S SALT takes away the baneful effects of hasty, irregular eating—overcomes the ravages of late hours and bodily fatigue.

ABBEY'S SALT is a gentle, mild, yet perfect tonic laxative. It regulates the stomach and bowels—keeps the blood pure—the eyes bright—and the skin fresh and beautiful.

Abbey's Effervescent Salt
IS NATURE'S BEAUTY DOCTOR

Burch and FullerThe Canadian Northwest
Homestead RegulationsAny even numbered section of Do-
minion Lands in Manitoba or the
Northwest Territories, excepting 8
and 16, which has not been home-
steaded, or reserved to provide wood
lots for settlers, or for other pur-
poses, may be homesteaded upon by
any person who is the sole head of a
family, or any male over 18 years of
age to the extent of one quarter sec-
tion, of 160 acres more or less.ENTRY.—Entry may be made per-
the district in which the land to be
taken is situated, or, if the home-
steader desires, he may, on applica-
tion to the Minister of the Interior,
Ottawa, the Commissioner of Immi-
gration, Winnipeg, or the local agent
for the district in which the land is
situated, receive authority for some
one to make entry for him. A fee
of \$10.00 is charged for a homestead
entry.HOMESTEAD DUTIES.—A settler
who has been granted an entry for
a homestead is required by the pro-
visions of the Dominion Lands Act
and the amendments thereto, to per-
form the conditions connected there-
with, under one of the following
upon and cultivation of the land in
each year during the term of three
years:(1) At least six months' residence
years.
(2) If the father (or mother, if the
father is deceased) of any person who
is eligible to make a homestead entry
under the provisions of this Act, re-
side upon a farm in the vicinity of
the land entered for by such person
as a homestead, the requirements of
-go of said occupation of sa sup stv
taining patent, may be satisfied by
such person residing with the father
or mother.(3) If a settler has obtained a pat-
ent for his homestead, or a certifi-
cate for the issue of such patent,
countersigned in the manner pre-
scribed by this Act, and has obtained
entry for a second homestead, the
requirements of this Act as to re-
sidence prior to obtaining patent may
be satisfied by residence upon the
first homestead, if the second home-
stead is in the vicinity of the first
homestead.(4) If the settler has his permanent
residence upon farming land owned
by him in the vicinity of his home-
stead, the requirements of this Act
as to residence may be satisfied by
residence upon said land.The term "vicinity" used above is
meant to indicate the same township
or an adjoining or cornering town-
ship.A settler who avails himself of the
provisions of Clauses 2, 3, or 4, must
or substitute 20 head of stock, with
cultivate 30 acres of his homestead,
buildings for their accommodation,
and have besides 30 acres substan-
tially fenced.Every homesteader who fails to
comply with the requirements of the
homestead law is liable to have his
entry cancelled, and the land may be
again thrown open for entry.
Application for patent should be
made at the end of three years, be-
fore the local agent, sub-agent, or
Homestead Inspector. Before making
application for patent the settler
must give six months' notice in writ-
ing to the Commissioner of Dominion
Lands, at Ottawa, of his intention
to do so.Information.—Newly arrived immi-
grants will receive at the Immi-
gration Office, in Winnipeg, or at any
Dominion Lands Office, in Manitoba
or the Northwest Territories, infor-
mation as to the lands that are open
for entry, and from the officers in
charge, free of expense, advice and as-
sistance in securing land to suit them.
Full information respecting the land,
timber, coal and mineral laws, as well
as respecting Dominion Lands in the
Railway Belt in British Columbia,
may be obtained upon application to
the Secretary of the Department of
the Interior, Ottawa, the Commis-
sioner of Immigration, Winnipeg,
Manitoba, or to any of the Dominion
Lands Agents in Manitoba or the
Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant
Lands to which the regulations above
stated refer, thousands of acres of
most desirable lands are available for
lease or purchase from railroad and
other corporations and private firms
in Western Canada.

LONDON, PARIS, NEW YORK AND EDMONTON

LOCAL

—Geo. J. Stephenson & Co. will open a general store at Bressay early this month.

—All members of the carpenters' union are requested to meet in Unity hall Monday morning at 9 o'clock.

—It is expected that the C. P. R. will double track their line from Winnipeg to Calgary in the near future.

—Notice is given that a new post-office between Bressay and Lloydminster, to be known as Sisley, will be opened this week.

—Battleford Herald: R. C. Laurie, D.L.S., is surveying the old trail on the south of the Battle river as far as Cut Knife for the Northwest government.

—The regular monthly meeting of the Women's Hospital Aid Society of the Edmonton Public Hospital will be held on Wednesday, Sept. 8 at 3 p.m. in the All Saints' school room.

—Capt. Brooks, of Detroit, Mich., who represents a number of intending settlers in the Edmonton district, from that state, is in town with a view of locating a large colony on the Pembina river, about sixty miles to the south west.

—Rev. Father Hussin arrived from Good Hope, on the Mackenzie River, at the Arctic Circle on Thursday. He left Good Hope on July 17th, and leaves for Montreal in a day or two to purchase next year's supplies for the northern missions.

—Battleford Herald: The steamer Saskatchewan arrived on Monday from Fort Pitt, and left on Tuesday for Prince Albert. Amongst the passengers embarking were Mrs. A. B. Dunn, Miss Rowland, Miss Skelton and Bishop Newham.

—At a school board meeting this morning Miss Hana Livingston was engaged as a teacher on the Edmonton public school staff. A reception committee, consisting of Messrs. Alex. Taylor and A. B. Cushing, were appointed to act in conjunction with the city board in the reception of the Governor General, Lord Minto.

—J. L. Haycock, binder twine inspector for the Dominion government, arrived in the city last evening. Mr. Haycock is well known from his connection with the Ontario patron movement of a few years ago. He considers crop prospects throughout the districts visited to be most bright. Edmonton's progress has greatly surprised him.

—E. A. Duncan, Canadian Immigration Agent, London, who is spending a few days in the district, left yesterday afternoon for a drive to J. A. Kennedy's at Horse Hills. While about three miles from the city his horse took fright at a foreman's equipage which was passing and bolted. Mr. Duncan was thrown from the rig but was not hurt.

—Saskatchewan Herald, August 24th. The season when frost is sometimes met with is passed and there has been no damage to crops in this district. The lowest reading of the thermometer at the Government meteorological station here was thirty-four degrees. This was very close to the danger point where the difference of a few degrees means the loss or gain of thousands of dollars to the farmers.

—Albertian, Sept. 1st: J. S. Fraser, of the firm of Fraser Bros., Strathcona, arrived in the city yesterday afternoon. He has just completed the erection of the elevator for John Limeham at Okotoks. Yesterday he left in running order and all was ready for the reception of the crop which is at present being harvested. It is one of the most modern elevators in Alberta, and is of 3,000 bushels capacity. This elevator is on the same lines as the large ones at Leduc.

—Saskatchewan Herald, Pottsville, reprinted from its files of August 25, 1879. "The Hudson's Bay company's steamer Lily took her first passengers west on the 30th of last month. They were His Honor the Lieutenant Governor and his secretary on an official visit to the settlements of the Upper Saskatchewan; Colonel Richardson, to dispose of a case of cannibalism at Fort Saskatchewan, and Mrs. Forgie. The passage up to Edmonton was successfully accomplished in six days."

—Okotoks Review, August 25.—During the past week there has been great activity in live stock circles on the southern branch of the C. P. R. The main portion of shipments were made from Cayley and train load after train load passed through here. Okotoks sent its quota of stock and withal this station presented an animated appearance with trains passing to and fro, two trains being sidetracked several times to permit the regular passenger train to pass. Mr. Moody and B. Berg made shipments from here of first-class cattle, their destination being Montreal. Outside of the live stock shipments there has been an immense volume of shipping done to this point, consisting of

farm machinery and merchandise for our merchants. Okotoks is experiencing an era of general prosperity and the outlook for a continuation of the same is very bright.

—Jas. Landey, sr., has moved to D. McDonald's house on McDougall st.

—Williamson Bros. shipped a car load of hogs to Calgary Saturday.

—An extra of the Northwest Territories Gazette sets the date for the assembling of the Territorial Legislative Assembly for Sept. 22nd.

—Two cars of waterpipes have been received for the extensions to be laid along Queen's street, Athabasca avenue and Third and Fourth streets.

—The air was full of smoke Friday forenoon. Fires have been reported mountains, for some time, but the appearance on Friday would indicate that the fire had spread to this side.

—Northwest Farmer: Probably Medicine Hat had the most advertising at the Winnipeg fair of all the towns in the west. The town council and board of trade displayed considerable enterprise by erecting a large banner, calling attention to the fact that the place has gas for manufacturing purposes. Large photographs were used to show the town and district, and an interesting booklet, entitled, "What was found under the Hat," was used to tell the story of the discovery and development of the gas deposit there. With a million and a half of cubic feet of gas from one of the wells each day, Medicine Hat stands a good chance of becoming a prominent manufacturing centre, and W. Cousins, who was in charge of the display, says he had many enquiries from manufacturers and others.

PERSONAL

Alex. Dandith is in town, having arrived yesterday.

Mr. and Mrs. Geo. W. Robertson, of Vegreville, are in the city today.

Mrs. J. A. Powell, son and daughter, returned Friday evening from a visit to Banff.
